# *Ins and Outs of Autism*

Presented by:

**MICHELE KOEING, LPC LMFT,  
DIRECTOR OF CLINICAL PROGRAMS  
ROCKLAND JEWISH FAMILY SERVICES**

It's often said to know a person with Autism, is to know one person with Autism. People who attend this training will be able to identify the many presentations of Autism. We will explore the diagnosis of Autism by breaking down the criteria listed in the DSM-V. Side by Side, we will be discussing both the key features of the diagnosis and the implications this has when working with someone diagnosed with Autism. This presentation will cover the differential diagnoses of Attention Deficit Disorder, Social Pragmatic Communication Disorder, and sensory processing disorder and how they can overlap with Autism.

**Register NOW**
